

GEA GROUP AG

Roadshow presentation

August 2024

Disclaimer

This presentation contains forward-looking statements. Forward-looking statements may include, in particular, statements about future events, future financial performance, plans, strategies, expectations, prospects, competitive environment, regulation and supply and demand. Statements with respect to the future are characterized by the use of words such as "expect", "intend", "plan", "anticipate", "believe", "estimate" and similar terms. Forward-looking statements are based on our current assumptions and forecasts. These statements naturally entail risks and uncertainties, which may cause the actual results of operations, financial position or performance to diverge materially from the estimates given here. Factors that could cause such a divergence include, inter alia, changes in the economic and business environment, fluctuations in exchange rates and interest rates, launches of competing products, poor acceptance of new products or services, and changes in business strategy. Given these uncertainties, readers should not put undue reliance on any forward-looking statements. We undertake no obligation to update or revise any forward-looking statements.

Due to rounding, the sum of percentages of order intake and sales by region as well as by customer industry may vary from 100%.

GEA – a compelling investment

A well positioned technology leader in food, beverage and pharma

- ① We “walk the talk” – proven track record
- ② Continuation of profitable growth
- ③ Strong cash generation enables reinvestment in profitable growth, sustainable dividend increase and share buyback
- ④ Sustainability as an integral part of our strategy and business models
- ⑤ Attractive risk profile due to diversified business in terms of industries, regions and customers
- ⑥ Leading technologies and positions in attractive Food, Beverages and Pharma markets
- ⑦ Well positioned to capture new growth opportunities such as New Food, carbon capture and more

④ Sustainability as an integral part of our strategy and business models

Engineering for a better world.

NET ZERO

by 2040

Sustainable Solutions

- Reduce greenhouse gas emissions scope 3 by 27.5% by 2030
- 100% of solutions will be offered with zero freshwater-use by 2030
- 100% of packaging-related solutions use sustainable packaging materials by 2030
- 100% of service parts and machinery packaging material to fulfill one of the five R's of circular economy (Reduce; Re-use; Repair; Remanufacture; Recycle) by 2026

Responsible Operations

- Reduce greenhouse gas emissions scope 1 & 2 by 60% by 2026 and 80% by 2030
- 50% of total energy demand is covered by certified energy management system by 2026
- All sites in water-stressed areas that implemented a water strategy by 2026
- Waste recovery rate at production sites of >98% by 2026
- 100% of preferred suppliers fulfill GEA's sustainability criteria by 2026 and 100% of A suppliers by 2030
- 100,000 people reached through skill-based volunteering in 2026
- Donation of 1% of net profit per year

Employer of Choice

- 80% favorable rating on the question: "Would you recommend GEA as a good place to work?" in internal employee engagement survey by 2026
- 21% female representation in management levels L1 – L3 by 2026
- 80% of open positions filled by own talent across management levels L1 – L7 by 2026
- Building a diverse talent pool to further strengthen diversity on all management levels by 2026

GEA's sustainability approach: announced in 2021, upgraded in 2023

GEA – a compelling investment

5 Attractive risk profile due to diversified business in terms of industries, regions and customers

GEA's key customer industries are very stable, reliable and growing

GEA has a highly diversified customer base

Balanced regional profile

¹ Source: Oxford Economics per 01/2024; Global production real value-added output in USD (expressed in constant prices)

GEA – a compelling investment

⑥ Leading technologies and positions in attractive Food, Beverages and Pharma markets

Food

Every third chicken nugget is produced using GEA technology

Food

Approx. every third process line for instant coffee was installed by GEA

Dairy Farming and Processing

Roughly one quarter of processed milk comes from GEA production systems

Beverages

Approx. every second liter of beer is brewed with the aid of systems and process solutions from GEA

Pharma & healthcare

Roughly every fourth liter of human blood for making plasma-derived products is processed using GEA equipment

Chemical

More than one third of all polymer producers are using GEA drying technology

Environment

Approx. two million tons of pollutants are averted annually thanks to GEA drying technology

Refrigeration and Heating

Each industry we serve utilizes industrial refrigeration technology from GEA

Marine

Roughly every second container ship in the world sails with GEA marine equipment on board

GEA – a compelling investment

⑦ Well positioned to capture new growth opportunities such as New Food, carbon capture and more

New Food

Add Better product portfolio

Heat pumps (decarbonisation)

Manure enricher

Lithium production & processing

Carbon capture solutions

"Engineering for a better world" is the driving and energizing principle connecting GEA's employees. As one of the largest systems suppliers GEA makes an important contribution to a sustainable future with its solutions and services, particularly in the food, beverage and pharmaceutical sectors. Across the globe, GEA's plants, processes and components contribute significantly to the reduction of CO₂ emissions, plastic use as well as food waste in production.

GEA is listed on the German MDAX and the STOXX® Europe 600 Index and also included in the DAX 50 ESG, the Dow Jones Sustainability Index Europe and MSCI Global Sustainability indexes.

Figures from FY 2023 and FY 2022

GEA Group structure

Five divisions organized along technologies; FY 2023

Division	Separation & Flow Technologies	Liquid & Powder Technologies	Food & Healthcare Technologies	Farm Technologies	Heating & Refrigeration Technologies
					
Key products	Separators, decanters homogenizers, vales & pumps	Engineering of large projects and entire process lines	Extrusion & milling, food processing & packaging equipment, ovens, tablet presses	(Automated) milking & feeding equipment, manure processing	Compressors, heat pumps, chillers, controls
Divisional share ¹	<p>Sales 27%</p>  <p>EBITDA 48%</p> 	<p>Sales 31%</p>  <p>EBITDA 21%</p> 	<p>Sales 18%</p>  <p>EBITDA 9%</p> 	<p>Sales 14%</p>  <p>EBITDA 13%</p> 	<p>Sales 10%</p>  <p>EBITDA 8%</p> 
Sales	€1,511m	€1,724m	€1,029m	€784m	€556m
EBITDA ²	€396m	€178m	€78m	€110m	€66m
Margin ²	26.2%	10.3%	7.6%	14.0%	11.9%
ROCE ²	37.8%	-% ³	6.7%	28.8%	39.2%

HRT	584	524	556	8.5%	14.8%	5-6%	10.2%	11.9%	12-14%

¹ Currency and portfolio adjusted | ² Before restructuring expenses; based on constant exchange rates

SUSTAINABILITY

Climate strategy: Well on track for ambitious targets

Previous targets, set in 2021, were the reduction of scope 1 & 2 emissions by 60% and of scope 3 emissions by 18% until 2030.

How do our products contribute to a better world?

Impact assessment based on Add Better portfolio and Scope 4 products¹

In 2023, GEA sold Add Better and Scope 4 products¹ that will save over their life cycle²

5 million tons of CO₂ emissions

**Annual emissions of
> 600,000 people³,
population size of Düsseldorf**

And 16.4 million m³ of water

**Annual water
consumption of
360,000 people⁴**

¹ Scope 4 products are disruptive solutions as they avoid CO₂ emissions or water usage by substituting another technology with the same function, but with lower carbon or water intensity.

² To measure the contribution of GHG reduction, GEA relies on the concept of avoided emissions. | ³ Annual per capita emissions of 8t in 2022 for people living in Germany (Ourworldindata.org)

⁴ Water consumption per capita per day in Germany in 2022 was 125 liters (Statista.com)

How do our products contribute to a better world?

Scope 4 products: disruptive solutions helping customers to reach their climate goals

From waste water to district heating:

Ammonia heat pumps turning
waste heat from wastewater of
a sewage treatment plant into
heating for residential buildings

Project with E.ON in Malmö, Sweden

These four ammonia heat
pumps save ~50,000 tons
of CO₂ p.a.

= Annual emissions
of ~6,250 people¹ 

¹ Annual per capita emissions of 8t in 2022 for people living in Germany (Ourworldindata.org)

How do our products contribute to a better world?

Add Better: GEA OptiPartner offering fully automated process control through AI

Optimum performance for spray drying:
Process control solution
improving productivity and
reducing energy consumption
by up to 14%

**Saves up to
1,600 tons CO₂ p.a.**

**= Annual emissions
of ~200 people¹**

¹ Annual per capita emissions of 8t in 2022 for people living in Germany (Ourworldindata.org)

How do our products contribute to a better world?

Add Better: GEA ECOSpin2 Zero reducing water consumption by 91%

Sterilization when filling PET bottles:
ECOSpin technology **reduces water consumption by up to 91%¹** and enables shorter rinsing times

Saves up to 97,500 m³ of water p.a.

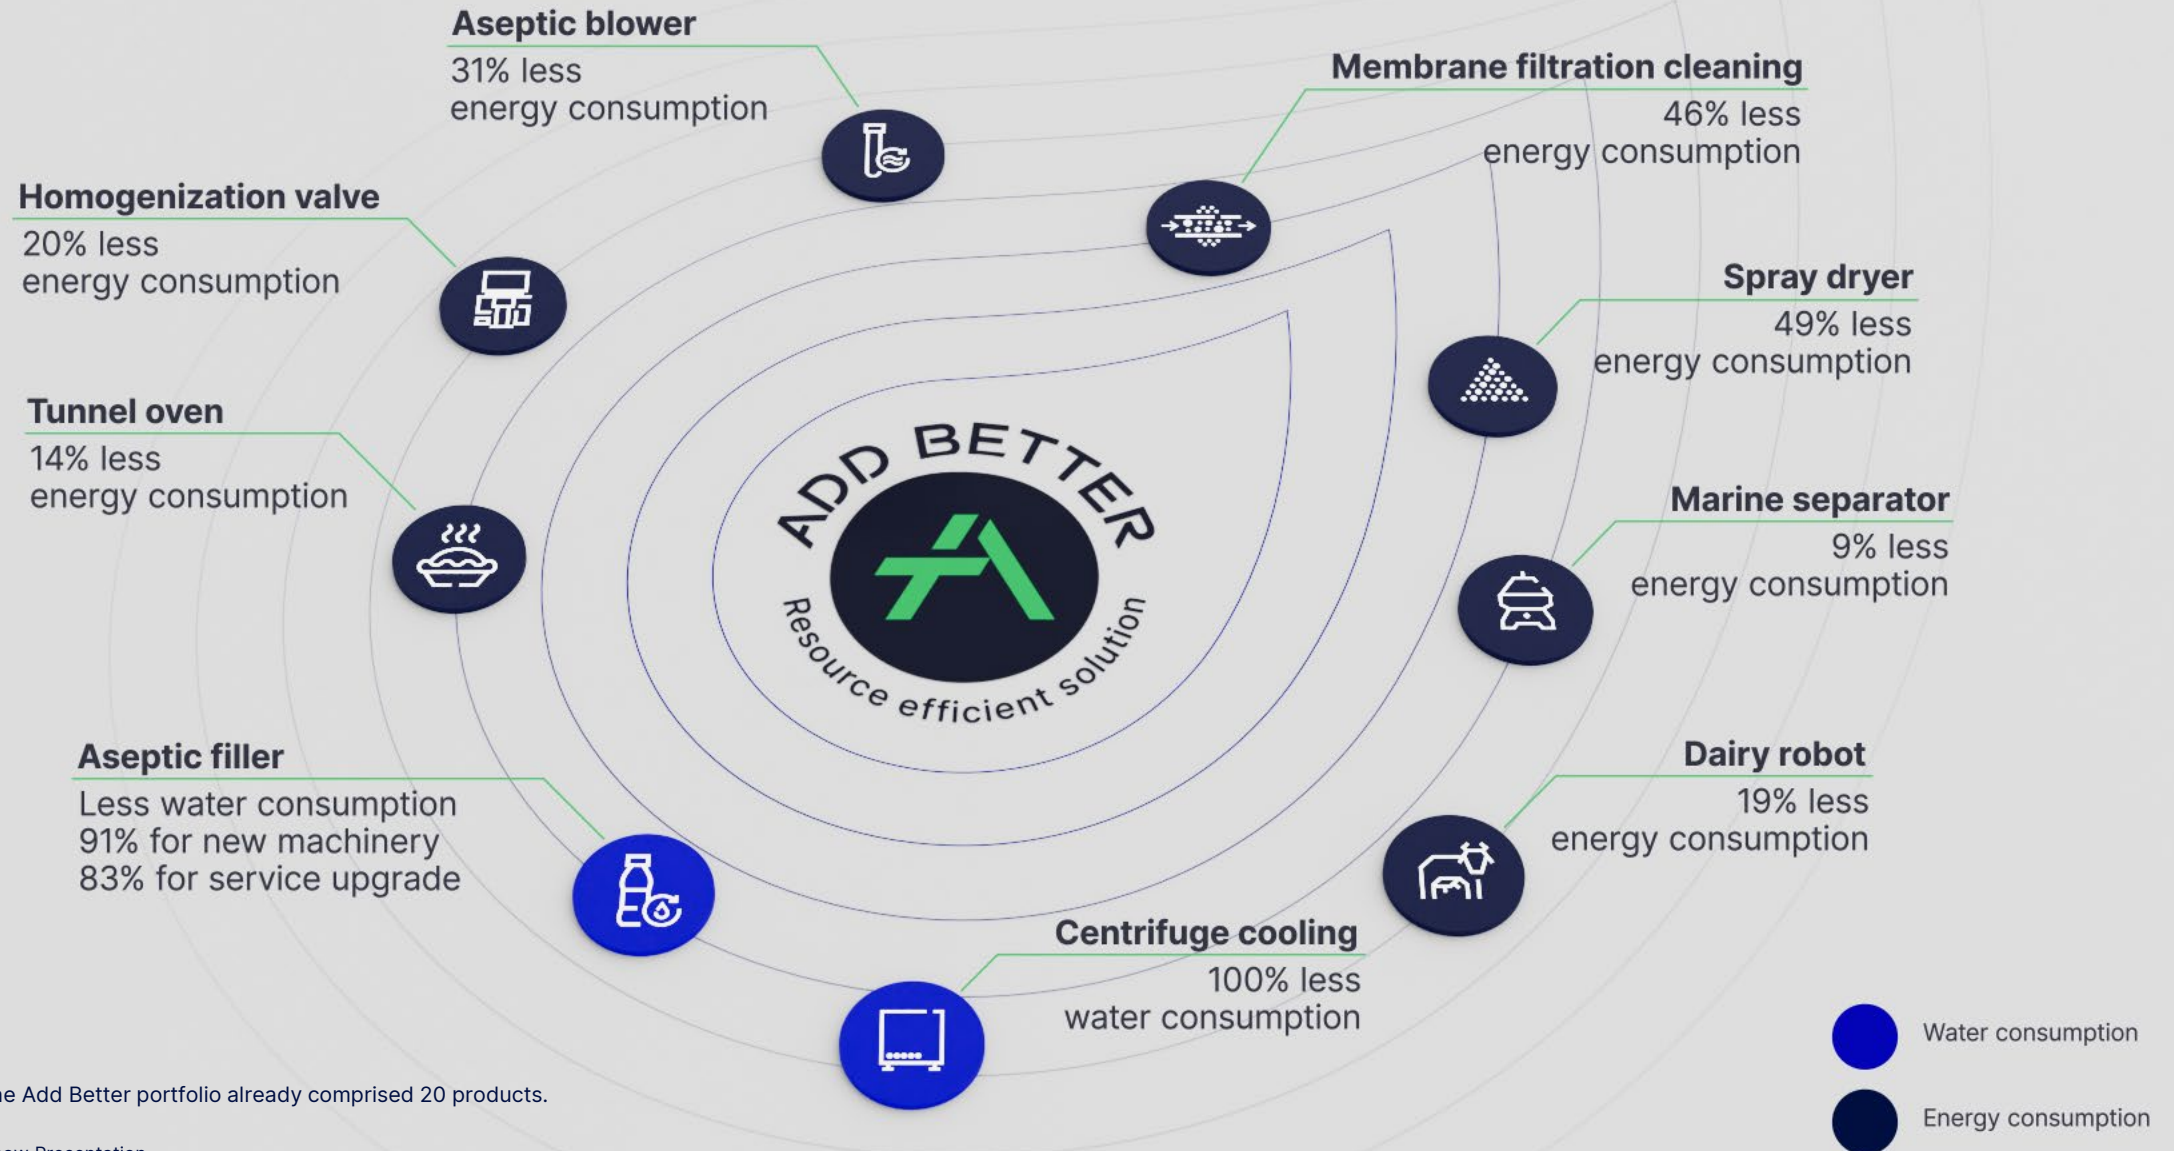

Annual water consumption of 2,100 people²

¹When retrofitting the installed base, water saving of up to 83% can be achieved. | ²Water consumption per capita per day in Germany in 2022 was 125 liters (Statista.com)

GEA Add Better portfolio steadily growing¹

Solutions that are significantly more resource-efficient than their predecessors

¹ As of 31 Dec 2023, the Add Better portfolio already comprised 20 products.

ESG rating highlights

ISS: Prime Status¹

In September 2022, GEAs 'Prime Status' (leadership in its industry index group) was confirmed.

German Sust. Award: Finalist

2023: Finalist for the
**German Sustainability
Award**

MSCI: „AAA“-Rating²

In January 2024, GEA's 'AAA' rating in the MSCI ESG Ratings Assessment has been confirmed.

Sustainalytics: Low Risk³

In January 2024, GEA received an ESG Risk Rating of 14.2 and was assessed by Sustainalytics to be at **Low Risk** of experiencing material financial impacts from ESG factors.

CDP: Climate A List

GEA holds two CDP leadership rankings: an 'A' for tackling climate change and an 'A-' for acting to protect water security.

DJSI Europe & World: Member

Following the December 2023 annual index review, GEA **remained in the DJSI Europe and became a constituent of the DJSI World.**

EcoVadis: „Gold“-Rating

GEA ranks among the top three percent of all companies ranked by EcoVadis worldwide.

Sustainalytics: Top Rated

In 2024, GEA was recognized by Sustainalytics as an **ESG Industry Top Rated company.**

¹ In September 2022, GEA's "Prime Status" (leading in the industry index group) was confirmed in the ISS ESG Corporate Rating. ² In 2024, GEA's "AAA" rating has been confirmed (on a scale of AAA-CCC) in the MSCI ESG Ratings. Q2 2024 RESULTS AND RAISED GUIDANCE 2024

EBITDA¹ margin improved once again significantly

	Q2 2024	Q2 2023	Δ YoY
Order Intake	€1,289m	€1,381m	-6.7% -3.5% organic
Sales	€1,323m	€1,342m	-1.4% +1.6% organic
EBITDA ¹ EBITDA ¹ margin	€201m 15.2%	€192m 14.3%	+4.7% +0.9%p
ROCE ^{1,2}	32.3%	33.8%	-1.5%p

¹ Before restructuring expenses | ² Average of L4Q

Executive Summary Q2 2024

Significant margin improvement, service business further expanded and strong cash generation

€m	Q2 24	Q2 23	Δ reported	Δ organic	
Order intake	1,289	1,381	-6.7%	-3.5%	Four large orders (>€15m) totaling €98m vs. three large orders in Q2 23 of €81m; €147m YoY decline in orders between €5m and €15m in size
Sales	1,323	1,342	-1.4%	1.6%	Strong growth in organic service sales, decline in organic new machine sales
EBITDA ¹ EBITDA ¹ margin	200.6 15.2%	191.5 14.3%	4.7% 0.9%p		EBITDA ¹ expansion driven by higher gross profit ¹
EBIT ¹	151.1	147.4	2.5%		
ROCE ^{1,2}	32.3%	33.8%	-1.5%p		Increase in capital employed ² overcompensated EBIT ¹ improvement (L4Q)
Net liquidity ³	32	65	-51.1%		Still net cash; strong cash generation partly offset cash outflow for share buyback and dividend payment

¹ Before restructuring expenses | ² Capital employed average of the last 4 quarters | ³ Net liquidity at the end of Q2 2024 including lease liabilities of €179m (Q2 2023: €157m)

Strong EBITDA¹ performance in H1 and Q2 2024

Solid divisional gross profit development despite mixed sales performances

H1 24 EBITDA¹ growth contribution by divisions in €m

Q2 24 EBITDA¹ growth contribution by divisions in €m

¹ Before restructuring expenses
GP¹ = Gross Profit¹; Operating Cost defined as difference between GP¹ and EBITDA¹

NWC/Sales ratio stable within the guided corridor

- Strong reduction in inventories YoY
- Lower contract assets overcompensated decline in contract liabilities (advance payments)
- Reduction in trade payables on the back of lower inventories YoY
- NWC ratio at 9.1% continues to stay within the guided corridor of 8.0 – 10.0%

Strong cash generation in Q2 2024

FCF

- NWC -€28m: outflow mainly driven by lower contract liabilities and higher inventories
- Others -€21m: mainly related to VAT
- Positive FCF of €83m

Net Cash

- Still net cash
- Strong cash generation partly offset dividend payment and cash-out for the share buyback

¹ Before restructuring expenses | ² Including lease liabilities of €179m at the end of Q2 2024 and €167m at the end of Q1 2024
